

SUBJECT: Letter of Appreciation for Joshua Freed

FROM: SAE New England Section

1. The SAE New England Section would like to express their appreciation for your support of the 29 April 2014 SAE Hybrid Formula school day event. This year's school day gave tours to over 140 high school kids and exposed them to the engineering challenge and experience the SAE College Design Series competitions provide. The time and effort you put into this event made it a tremendous success.

2. The goal of the SAE New England Section is to expand our member's knowledge and networks at the local level. The section runs totally on volunteer activities and participation. Without our volunteer participation we could not provide the interesting and educational events that allow our membership to come together, network, learn something and enjoy themselves. Thanks again for your support of this event and the SAE New England section.

Sincerely,

Rick Coven, P.E.  
SAE New England Chairman
